

Seeking a Custom Millworker / Exhibit Fabricator

Displayco Canada, leader in exhibit design and building, has an immediate requirement for a Custom Millworker / Exhibit Fabricator for our expanding production department.

The technician will work directly with both our Exhibit Fabricator Foreman and Production Coordinators in the production and building of high quality tradeshow displays and exhibits. Must take pride in a quality finished product that exceeds the expectations of our customers.

Responsibilities Include:

- Operation of the CNC and maintaining the CNC
- Production of displays in the wood-shop as well as completion of displays offsite
- Create CNC files and tool pathing to complete jobs
- Safe operation of shop tools and equipment
- Fabrication of displays from concept to completion
- Managing multiple jobs with strict deadlines
- Effectively communicating with entire production team
- Offsite installations
- Perform additional assignments

Qualifications & Experience:

- Carpentry work experience
- CNC experience is an asset
- Proficiency of computer skills and knowledge
- Proven ability to perform job duties in a fast-paced environment
- Excellent planning and organizational skills
- Effective verbal and written communication skills

Do you meet the requirements for this challenging role? If so, please forward your resume and detailed qualifications to info@displayco.ca attention: Human Resources

We would like to thank all applicants for their interest; however only those candidates selected for an interview will be contacted.
